

The SLSMC Hosts Transportation Industry Showing of *Mysteries of the Great Lakes* IMAX film

The St. Lawrence Seaway Management Corporation (SLSMC) was pleased to host a reception and viewing of the recently released IMAX film *Mysteries of the Great Lakes* on Monday, September 29, 2008 at the Ontario Science Centre in Toronto. The event was organized in cooperation with the Canadian International Freight Forwarders Association (CIFFA), the Toronto Transportation Club, and the Toronto Steamship Association. The evening was very well attended, bringing together a broad cross-section of transportation industry stakeholders. Events such as these help to promote awareness of marine transportation on the Great Lakes / Seaway and foster a greater sense of cooperation throughout the transportation industry.

Mysteries of the Great Lakes takes the audience on a journey through the Great Lakes, highlighting the environmental, social, and economic importance of the earth's greatest freshwater resources. It is a dramatic journey through some of the most spectacular scenery in the world. As a sponsor of the film and as a steward of the Great Lakes St. Lawrence Seaway System, the SLSMC is proud to be a part of a project that contributes to the education, awareness, and sustainability of the Great Lakes. *Mysteries of the Great Lakes* is a Science North Production and is now playing at select IMAX theatres across North America. For more information about the film, please visit www.mysteriesofthegreatlakes.com.
